CITY OF FARMINGTON
INTER-OFFICE MEMORANDUM

TO: Mayor Roberts and City Council

FROM: Kristi Benson, CPPO, CPPB
Purchasing Supervisor

DATE: August 29, 2013

SUBJECT: Reconstruct Taxiway B at the Four Corners Regional Airport,
Bid #14-100231

USING DEPARTMENT: Administration

==========

A bid opening was held on August 27, 2013 to Reconstruct Taxiway B at the Four Corners Regional Airport. One bidder responded.

The Central Purchasing Department concurs with the recommendation from the Administration Department to award the bid to Oldcastle SW Group Inc. dba Four Corners Materials from Farmington, New Mexico as submitting the only responsive bid which is considered to be fair and reasonable meeting specifications for a total awarded amount of $1,676,933.74 plus estimated applicable taxes of $119,481.53. The single response documentation memo is attached. Award is contingent upon receiving Federal Aviation Administration and New Mexico Department of Transportation-Aviation Division grant funding.

CITY OF FARMINGTON
CENTRAL PURCHASING
INTER-OFFICE MEMORANDUM

TO: BID: Reconstruct Taxiway B at the Four Corners Regional Airport, #14-100231

FROM: Jennifer Rowland, CPPB
Buyer II

DATE: August 29, 2013

SUBJECT: Single Response Documentation

==========

Fifty-four (54) Companies were notified of this solicitation. A legal ad was published in the Albuquerque Journal and the Farmington Daily Times as well as the City of Farmington's website.

The following firms were contacted regarding this solicitation and requested information regarding their decision not to respond to the above bid.

Their decision was based on the following:

(1) SAN BAR CONSTRUCTION/MATTHEW SANCHEZ: We are not a certified installer for the thermoplastic numbers for alternate 1.

(2) AMERICAN PAVEMENT SOLUTIONS/BOB BURKEL: Didn't submit a bid since it is all asphalt.

(3) MOUNTAIN STATES CONSTRUCTORS, INC./ROB DEMEULE: Mountain States Inc. chose not to bid this job primarily due to job scheduling issues and secondarily due to possible conflicts with weather. While we are mobilizing a hot mix plant into the area next year and could have integrated this project into our schedule next year, this project did not fill into our current year schedule, and the possible start date of late autumn 2013 gave concern for weather stoppages.
