MEMO

To: Mayor and City Council
From: Nica Westerling, PE
City Engineer
Date: May 22, 2014
Subject: Resolution for San Juan/ Scott Intersection Improvements

The intersection of San Juan Boulevard and Scott Avenue appeared on the NMDOT Fiscal Year 2012 Transparency Report listing of severe crash locations at urban intersections (Table IV-1A). This signalized intersection was constructed in the 1970's. The traffic signal head placements in relation to the driving lanes do not meet current standards; existing signal standard mast arms are too short to facilitate the correct mounting locations; and, there are no pedestrian indicators.

An application for safety improvements at the intersection was submitted in December 2012 to reconstruct a new traffic signal system to meet current NMDOT standards and will include ADA accessible ramps, durable crosswalk and lane line markings and symbols. The project was approved by NMDOT; funding will be in two fiscal years: FY14 for design and FY15 for construction.

The first contract, a Cooperative Project Agreement – Design Work, Control No F100200, has been received for engineering in the amount of \$20,000.00 (\$18,528 HSIP funds and \$1,472 NMDOT participation). The attached resolution is required to accept funds from the New Mexico Department of Transportation, federal Highway Safety Improvement Program (HSIP).

Once design work is completed and all clearances from NMDOT are received, another contract will be forthcoming for the construction portion of the project. There is no local match required for these funds, it is 100% funded with HSIP funds.

17. Appropriation.

The terms of this Agreement are contingent upon sufficient appropriations and authorizations being made by the State Legislature, or the Congress of the United States, if federal funds are involved. If sufficient appropriations and authorizations are not made, this Agreement shall terminate upon written notice given by the Department to the Public Entity. The Department is expressly not committed to expenditure of any funds until such time as they are programmed, budgeted, obligated by FHWA, encumbered, and approved for expenditure by the Department. The Department's decision as to whether its funds are sufficient for fulfillment of this Agreement shall be final.

18. Scope of this Agreement.

This Agreement constitutes the entire Agreement between the Parties. Any claimed covenant, term, condition, warranty or promise of performance not expressly included in this document or its amendments, is not part of this Agreement and not enforceable pursuant to this Agreement. Performance of all duties and obligations herein shall conform with and shall not contravene any state, local, or federal statutes, regulations, rules, or ordinances.

19. Severability.

In the event that any portion of this Agreement is determined to be void, unconstitutional, or otherwise unenforceable, the remainder of this Agreement shall remain in full force and effect.

20. Term.

This Agreement becomes effective upon signature of all parties. The effective date is the date when the last party signed the Agreement on the signature page below. This Agreement shall terminate on **September 30, 2016**. Neither party shall have any obligation after said date except as stated in Sections 7 and 16 above.

21. Termination.

- a. The Department may terminate this Agreement if the funds identified in Section 2 above have not been contractually committed between the Public Entity and a contractor within three (3) months from the date this Agreement is effective.
- b. The Department will review inactive projects on a quarterly basis. An inactive project is a project for which no expenditures have been charged against federal funds for the past 12 months. If the Department determines a project to be inactive, the Department may, as directed by FHWA, terminate the agreement and redirect the unexpended balance pursuant to 23 CFR Part 630.106.
- c. The Department may, at its option, terminate this Agreement if the Public Entity fails to comply with any provision of this Agreement. By such termination, neither party may nullify obligations already incurred for performance or failure to perform prior to termination of the Agreement.
