Members Absent	
Alex Norvelle, Member, Electrician	

Call to Order

The February 14, 2023 Electrical Code Advisory Committee meeting was called to order by Chairman, Roger Sheak at 1:30 p.m. Roll call was taken and there was a quorum to hold the meeting.

Daniel Anglin made a motion to approve the August 9, 2022 minutes and Derrick Childers seconded the motion. The motion passed with no objections.

Old Business

Roger reached out to a Manufactured Housing Division Inspector and they were agreeable to meeting. Daniel Martinez suggested we get in touch with the Bureau Chief as the inspectors were being rotated around the area. Derrick agreed to assist Roger in getting in touch with him to set up a meeting.

New Business

Roger teleconferenced in Bill Fowler with Eaton to address some of the concerns with lead times on electrical equipment. Bill explained that it is a pipeline issue and they were waiting on parts that weren't interchangeable because of the U.L code.

Roger read the Open Meetings Act Resolution, Jim moved to accept it and Derrick seconded the motion. The Board approved the resolution.

The Board looked over the updated drawing for the overhead secondary service. However, there were some changes that need to be made so the approval was tabled for the next meeting.
