Definitions and Rate Treatment

Energy Delivered: Electricity supplied by FEUS to the customer, measured at the meter

Energy Received: Electricity supplied to FEUS by the customer, measured at the meter

Net Energy: Energy Delivered less Energy Received

If Energy Delivered to the customer exceeds Energy Received by the customer's system during a billing period, the customer will be invoiced for the Net Energy applied to the current Residential Service MONTHLY ENERGY CHARGE and PCA. The PCA charge is calculated based on the Net Energy and current PCA rate.

If Energy Received by FEUS exceeds Energy Delivered to the customer during a billing period, FEUS will purchase the difference (Energy Received less Energy Delivered) at the current AVOIDED COST rate. The Avoided Cost rate will be determined by FEUS on an annual basis.

STANDBY SERVICE RIDER:

Customers with behind-the-meter solar generation will be eligible for charges pursuant to RESIDENTIAL SERVICE STANDBY SERVICE RIDER.

SPECIAL TAX AND ASSESSMENT ADJUSTMENT:

Billings under this tariff may be increased by an amount equal to the sum of the taxes payable under the Gross Receipts and Compensating Tax Act and of all other taxes, fees, or charges (exclusive of payments made in lieu of ad valorem taxes) payable by FEUS and levied or assessed by any governmental authority on the public utility service rendered, or on the right or privilege of rendering the service, or on any event incidental to the rendition of the service.

TERMS OF PAYMENT:

Bills are due and payable within fourteen (14) days of the billing date, are past due fifteen (15) days after bill is rendered, are delinquent twenty-five (25) days after the billing date, and service may be terminated for non-payment approximately thirty (30) days from the original due date of the bill subject to a first delinquent notice provided fourteen (14) days prior to disconnection of utility service and a last notice of termination mailed five (5) business days prior to termination of service. If there is a returned check from the customer or the customer is on a payment plan, the notice is hand delivered to the customer at least two (2) days prior to service termination.

BUDGET BILLING PLAN:

Eligible residential customers may elect to participate in the Budget Billing Plan. Under this plan, FEUS will estimate the customer's monthly bills for the next twelve months. FEUS will then render average monthly bills based on the estimate. A credit or debit will be calculated each month based on the customer's actual consumption and FEUS' estimate. The accrued credit or debit balance will be shown on each monthly bill. Annually the customer's account will be reviewed and the average monthly bill adjusted, if necessary, to correct for differences between the customer's actual monthly bill and FEUS' monthly estimate. Settlement of the accrued credit or debit will always be made on a customer's final bill. FEUS reserves the right to adjust its' estimate at any time to correct for consumption or charges above or below the estimate. Customers will not be charged interest on accrued debit balances nor paid by FEUS on accrued credit balances.

For customers with onsite generation: due to the unknown generation on the customer's premises and the inability to accurately determine generation and usage, the Budget Billing Plan will not be available to customers receiving service under this tariff.

TERMS AND CONDITIONS:
