INTRODUCTION

Learning to stay alive—or even thrive—in extreme environments is one of the greatest thrills for a scout. SURVIVAL: THE EXHIBITION offers scouts a safe, immersive, and informative space in which to learn and test new-found survival skills and work toward earning specific badges. Simulating a variety of extreme environments, SURVIVAL: THE EXHIBITION combines STEM learning with gaming techniques for a challenging, hands-on exploration of the scientific principles behind key survival tactics.

More than a wilderness course or mountaineering experience, SURVIVAL: THE EXHIBITION reminds scouts that in any situation they already have the two most important tools required: intelligence and rationality.

From On the Water to Temperate Forest, High Mountains and Extreme Cold to Desert, SURVIVAL: THE EXHIBITION empowers scouts by providing them with invaluable skills that could literally save their lives and others’ lives. Hands-on learning is key to survival. Tactile, collaborative interactives along with instructional content, inspiring stories, and an engaging setting help scouts develop the physical memory necessary to retain new skills as they work toward fulfilling their badge goals.
